

**DRAFTER'S NOTE
FROM THE
LEGISLATIVE REFERENCE BUREAU**

LRB-3593/P2dn
PJK:nwn:ph

October 27, 2009

In this version, I only addressed the suggested changes that were highlighted in yellow, which were in ss. 185.981 (2), 185.982 (2), and 185.983 (1) (intro.). Thank you for that; it was very helpful. I did not compare the two versions of the draft word for word, in case a suggested change was inadvertently not highlighted.

I think that not all of my drafter's notes with the last version were understood as I intended, especially the note on standardizing references throughout the statutes to cooperative associations that operate health care plans, so I have included embedded notes in the draft to better make my points.
